Superior Comfort
with Quality Service

DEVI® 

DEVI Floor Heating Systems were created based on the science of radiant heat which warms people and objects - not the air like some traditional forms of heating.

Floor heating reduces the amount of travelling dust particles considerably, which is naturally a great relief for allergy and asthma sufferers while also encouraging a healthier living environment for everyone. Floor heating goes particularly well under hard floor surfaces and does not take up valuable space.

Using DEVI thermostats allows you to heat specific areas independently or program them to meet your weekday and weekend lifestyle.

Pure comfort is far from the only reason to choose DEVI floor heating systems. These systems offer flexibility, durability and minimal energy consumption. They also come with a warranty that is second to none!

Floor heating cables and mats have a 20 year warranty and thermostats come with warranties up to 5 years depending on the model. Ceiling foils and other accessories are also available.

These products are available country-wide and are approved to Australian standards.

DeveX Systems specialises in heating, cooling and insulation solutions for new and existing buildings in residential, commercial and industrial environments.
