

18 MARCH 2020

IMPORTANT INFORMATION

To our valued customers and suppliers,

As we all deal with the spread of the Coronavirus, we would like to keep you informed about what we are doing at Devex Systems during this crisis.

Our main priority is to protect the health of our employees and their families, as well as our customers and business partners.

We have implemented common-sense measures within our business including preventative hygiene and we are looking at having many employees work from home.

At this stage, we do not expect these measures to slow down our operations. Our customer service team will remain operational as needed, remotely. Our manufacturing team will continue working from our warehouse in Mona Vale NSW whilst observing social distancing protocols.

We currently have good stock levels and are in close contact with our suppliers to ensure ongoing supply. We are closely monitoring developments and we will advise if further changes are implemented that may impact you.

The health and safety of our business partners and employees is our top priority. We would ask that anyone displaying any cold or flu symptoms to not come to the office and call us on **1800 636 091** instead.

These are challenging times and we will endeavour to help and assist with your business where we can.

We thank you for your business and support.

John Balass
Managing Director
